

Programme NASO-symposium 2011

Date: April 14th 2011
Time: 10.00 – 18.00h (dinner afterwards)
Location: Onderzoekscentrum Preventie Overgewicht Zwolle, VU-Windesheim
Campus 1, ZWOLLE
Gert Veenhovenzaal, G220 (building G, 2nd floor)
Information: Tommy.Visscher@falw.vu.nl

Walking distance from station Zwolle (10 min). Parking available (2 EUR/day).

Final programme

- 10.00-10.10 Welcome and introduction (*Dr. Tommy Visscher, NASO President*)
- 10.10-10.20 Opening (*Prof. dr. Jaap Seidell, Director Onderzoekscentrum Preventie Overgewicht Zwolle, VU-Windesheim*)
- 10.20-10.40 Explaining the association between screen time and overweight in 4-12 year old children
Elske de Jong – VU-Windesheim, Amsterdam/Zwolle
- 10.40-11.00 Postweaning resistance to fat/sucrose (FS) diet-induced metabolic derangements in mice selectively bred for increased running wheel activity can be overruled by maternal FS overfeeding
Stefano Guidotti – University of Groningen
- 11.00-11.20 Cue induced food craving in obesity: an fMRI study
Elsmarieke van de Giessen - Academic Medical Center, Amsterdam
- 11.20-11.40 PUFA acutely decreases muscle triacylglycerol-derived fatty acid uptake and increases postprandial insulin sensitivity
Anneke Jans – Maastricht University Medical Centre, Maastricht
- 11.40-12.00 Polyunsaturated fatty acids acutely improve insulin sensitivity and may prevent mitochondrial dysfunction in skeletal muscle
Ellen Konings – Maastricht University Medical Centre, Maastricht
- 12.00-13.00 [*Lunch break*](#)

- 13.00-14.00 Brown adipose tissue in humans**
Dr. Wouter van Marken Lichtenbelt - Maastricht University Medical Centre, Maastricht
- 14.00-14.20 Weight loss-induced disproportional Basal Metabolic Rate reduction is not sustained during weight maintenance
Stefan Camps – Maastricht University Medical Centre, Maastricht
- 14.20-14.40 Brown adipose tissue function before and after major weight loss following bariatric surgery
Guy Vijgen – Maastricht University Medical Centre, Maastricht
- 14.40-15.00 Evaluation of an 18-month obesity treatment programme
Erik Aller – Maastricht University Medical Centre, Maastricht
- 15.00-15.20 *Coffee/tea break*
- 15.20-16.20 Translating scientific knowledge into policy action: the case of brown adipose tissue**
Prof. dr. Jantine Schuit – VU University and RIVM
- 16.20-16.40 Socio-cultural determinants of overweight in female Moroccan migrants in the Netherlands and their compatriots in Morocco: a qualitative study
Mary Nicolaou – Academic Medical Center/VU University, Amsterdam
- 16.40-17.00 NPY sensitivity in an animal model of diet-induced obesity
José van den Heuvel – Academic Medical Center, Amsterdam
- 17.00-17.20 Hypothalamic neuropeptide Y controls the hepatic secretion of VLDL triglycerides in rats via the sympathetic nervous system
Eveline Bruinstroop - Academic Medical Center, Amsterdam
- 17.20-18.00 Algemene Leden Vergadering
- 18.00- Dinner (for those who have registered)
